I really enjoyed working with Princess Debbie. She was very upbeat and excited to learn new things. There were times when neither of us knew what to do and she was on the ball, as a navigator, looking up code examples in zyBooks.

Sadly, there were times when neither of us could figure out a problem, so we had to ask the instructor for help, but this is to be expected. It's going to take both of us time to improve on our trouble shooting skill. I'm positive we are both up for the challenge!

I would enjoy working with Princess Debbie again!

I really enjoyed working with Steven! We have known each other for a few years now, and we work very well together. We didn't really run into any issues on this project, so we flew through it with ease! I always enjoy working with Steven on group projects, and I would love to do it again!
